

Dashcams, model B5

B5 Three-Camera Wi-Fi Dashcam

Wi-Fi dashcam with front, cabin and rear cameras and a screen

The B5 is a Wi-Fi dashcam with three cameras: a front camera recording 2304 × 1296 through a 145° lens, a 720p in-cab camera and a 720p rear camera, each at 30 fps. It has a 3.16-inch screen, WDR and a G-sensor, takes microSD cards up to 128 GB, and has no 4G and no GPS.

Three cameras

The road at 2304 × 1296, plus the cabin and the rear in 720p, all at 30 fps.

WDR image

Wide dynamic range on the front camera, for night driving and a low sun.

No SIM needed

View and download footage over Wi-Fi on a phone at the vehicle, with no data plan.

Screen and reversing view

A 3.16-inch screen shows live video and the rear view when reversing.
