

Dashcams, model D3

D3 4G Mini Dashcam

Android 4G dashcam with a 3-inch touch screen, 270° lens and ADAS

The D3 is an Android 10 dashcam with 4G, GPS and a Wi-Fi hotspot. It has a 3-inch touch screen, a front camera on a 270° rotating mount, a 1080p rear camera, lane-departure and forward-collision warnings, on-screen navigation and Bluetooth hands-free, and takes microSD cards up to 128 GB.

3-inch touch screen

Android 10 with on-screen GPS navigation and Bluetooth hands-free.

Lane and collision warnings

ADAS warns of lane departure, forward collision and the vehicle ahead moving off.

270° rotating lens

Turn the front camera to face the road or the cabin to suit the vehicle.

4G and hotspot

Live tracking and video over 4G, with the connection shared as a Wi-Fi hotspot.

Video
